

APPENDIX A

Appendix A contains examples of the user interface Web pages discussed in the embodiments of the invention. User interface Web pages consist of HTML 26 documents sent to Web browser 38 on remoter computer 36. The user interface Web pages may change in look and function at anytime and not be excluded from the scope of preferred embodiments. The Web pages are to serve as a user interface to access the system and method described and can therefore be changed and modified as desired without changing the scope and functionality of the embodiments of the invention.
